MPORTANT TO FEMALES—DR. CHEESEMAN'S PILLS—The combination of ingredients in these Pills is the result of a long and
extensive practice. They are mild in their operation, and certain in correcting all irregularities,
painful menstruations, removing all obstructions,
whether from cold or other causes, headache, pain
in the side, palpitation of the heart, whites, all
nervous affections, hysterics, fatigue, pain in the
back and limbs, &c., disturbed sleep, which arise
from interruption of nature. Dr. Cheeseman's
Pills was the commencement of a new era in the
treatment of these irregularities and obstructions,
which have consigned so many to a premature
grave. No female can enjoy good health unless
she is regular, and whenever an obstruction takes
place the general health begins to decline. Dr.
Cheeseman's Pills are the most effectual remedy
ever known for all complaints peculiar to females.
To all classes they are invaluable, inducing, with
certainty, periodical regularity. They are known
to thousands who have used them at different periods throughout the country, having the sanction
of some of the most eminent physicians in America. Explicit directions, stating when they should

At the time of the birth of Mr. Melville, his father owned a large number of fine herses, and as soon as his son's perceptions were sufficiently formed to enable him to distinguish objects, he manifested an inherent love and admiration for the noblest of animals—the horse. miration for the noblest of animals-the horse As he grew in years this passion increased, and as he had ample opportunity to gratify it, he soon be-came an expert indriving and riding horses—those of the most untameable and wild nature being his favorites.

In addition to Mr. Melville's superb hersemanship, he stands unrivalled in athletic and gymnastic exercises. With his accomplished sons, who inherit the talent and daring of their father, he gives a beautiful illustration of classic roupings, graceful poses, and splendid tableaux, His success in this as in other branches of his specialty is beyond comparison, and defies rivalry or No other artiste ever acquired such a proficiency

No other artists ever acquired such a pronciency in these characteristic displays. With a certain innate grace rarely seen in man, he enriches them with all the attributes of elegance and skill, and adorns them with an enthusiasm of action and picturesque power truly fascinating,

FROM WEST VIRGINIA. Sudden Raid of the Enemy-New Creek Captured and Burned-Attack on Piedmont Repulsed—Communication between Wheeling and Cumberland re-established WHERLING, Nov. 29.—The enemy, under Gen. Payne, surprised, captured and burned

New Creek, on the Baltimore and Ohio Rail-Yesterday they sent a force of about 500 to Piedmont, but were stubbornly opposed by Company A, 6th Western Virginia, who fought them three hours, when they retreated on the Elk Garden road. The damage inflicted on the railroad at Pied-

facts, as far as can be gathered, of the raid on the Baltimore and Ohio railroad: About one o'clock Monday afternoon a rebel force, estimated at from 1,500 to 2,000 strong, appeared in front of New Creek Station, which was defended by a small body of troops behind

earthworks, who were soon overcome, and either surrendered or fled. In a short time the enemy were in full possession of the post. They blew up the earthworks and destroyed all the temporary and other buildings, except the residence of Col. Armstrong, who is either now, or has been, in

The cutting of the telegraph wires gave the alarm to the railroad men at Piedmont, whereupon all the rolling stock of the company and other movable property was sent away.

Soon after the enemy reached Piedmont, and destroyed the road house of the company, a large workshop, and a considerable quantity of valuable stationary machinery. So far as is known, no damage was done to the railroad track or bridges. The enemy are reported to have left in a southerly direction. There is reason to hope that the raiders will be overtaken by forces

ANOTHER MYSTERY .- The body of an unknown man was found in a corn stack, on a farm near Freehold, N. J., a day or two since, under circumstances which showed that a shocking murder had been committed. The skull had been fractured in two places, a gash an inch and a half in length cut in the left check, and an instrument had been thrust down the throat, nearly severing the tongue. A severe blow had also evidently been inflicted upon the chin, crushing it, and caushing it to turn black. Fifteen wounds in all had been inflicted upon the body of the man. A coroner's inquest was held, but no additional light was thrown upon the matter. Governor Parker, of New Jersey, has offered a reward of three hundred dollars for the apprehension and conviction of the criminals.

Subsequently Barre was taken to Chattanooga and tried by a general court martial, on the charge of desertion while in the face of the enemy, on picket duty. He was last week found guilty of the charges and specification and sentenced to be shot on the fifteenth day of December. His real name is Oliver H. Wheeler, and his age about 22 years.

Several gen-tlemen, who shortly after that occurrence, were present during a conversation with him, say that he admitted that General Sherman had captured Macon and Milledgeville. Georgia, and that there was but little, if any doubt, from the rapid progress he was making. that he had captured Augusta, and that he would encounter nothing serious to impede his march to the seaboard. That with Augusta in his possession, the South would be cas off from Richmond, and that no troops could be sent from Lee to reinforce Savannab. He talked freely, and apparently with frankness, remarking that the South now regards Gen. Sherman with more alarm than any other officer in the service of the United States; and that the press of the South would not be so communicative as heretofore regarding Sherman's movements. He further said it was reported that Sherman had liberated a number of prisoners and armed them, but this rumor needed confirmation.

A COON UNDER THE CRINOLINE .- We WHnessed an amusing incident on one of our su-burban streets, last Saturday. A fashionable young lady, got up in the highest style of the milliners' art, and arrayed in all the glory of five-dollar-a-yard silk, a twenty dollar bonnet, and a three hundred dollar shawl, was majestically sweeping along in the direction of the Fair Ground, while, just behind, a little boy was leading a pet coon.

A countryman in a brown slouched hat and a lineey woolsey "warmus," came along followed by a yallah dog, whose nose was scarred diagonally, transversely and laterally with the scars of many a flercely contested battle with members of the raccoon family. "Tige" no sooner saw the ring-tailed representative of his ancient enemy, that he made a frantic dive for him, accompanied by a furious bark. Cooney comprehended the situation at a glance, boiled incontinental, and sought a sanctuary beneath the ample circumference of the young ladies crinoline. The young lady screamed, while the dog made rapid circles, snuffing the air, and evidentally bewildered to know what had become of the coon. The situation of the young lady was critical and embarrassing. She was afarid to move for tear the coon would bite, and the coon declined to leave his retreat until the dog had retired. Finally the dog was stoned off, the boy dragged the coon from his hi ding place, and the young lady went her way with the lively consciousness of having experienced a new sensation.

THE NEW YORK CONSPIRATORS-Messrs. Ed iters: A tew weeks since I was in New York and from what I learned, saw enough to satisfy me that some infernal plot was brewing for a general mob, insurrection or incendiary plan to burn the city. Many of the leading Copper-heads said they would not submit to Lincoln's administration and in case he was elected "we should see the devil to pay"—that "they would let their property go in the general conflagra-tion." I immediately notified the authorities at Washington of what I had heard. From what I heard and saw previous to the election, I am satisfied that General Butler's presence

ment has been invented by Mr. Boyis, for the purpose of taking short hand notes with more than usual rapidity. It consists of a series of levers worked by keys, like a piano forte, and acting on types, which impress themselves on a strip of paper that is gradually unrolled. It is said that an ordinary reporter, with one finger only, can work as quickly as the best shorthand writer, and thatt by using both the hands, the rapidity is immensely increased .- London Printer's Register.
